

TECHNICAL DATA SHEET

KILBLAT™ HFO

Non-Flammable Aircraft Approved Insecticide for Crawling Insects

DESCRIPTION

KILBLAT™ HFO is a non-flammable aircraft approved insecticide used during line maintenance to eliminate cockroaches and other crawling insects on board. KILBLAT™ HFO is particularly suitable for treating aircraft cabins, holds, galleys, cupboards and all exposed areas. This aerosol is propelled by HFO-1234ze, an HFO (HydroFluoro-Olefins) refrigerant with very low Global Warming Potential.

FEATURES & BENEFITS

- Specially designed to effectively destroy crawling insects.
- Non-flammable aircraft approved formulation.
- Slow release active, providing long lasting effect over time.
- Applied "upside down" to target the areas to be treated.
- One-shot diffuser for easy application.
- Aerosol compliant with European regulation N° 517/2014 on fluorinated greenhouse gases. HFO propellant with very low Global Warming Potential (GWP <1).
- Recyclable plastic cap and steel 3-piece can.

PREPARATION

- Wet locations and presence of food are favorable conditions for cockroach development.
- In order to obtain maximum efficiency, it is necessary to carry out a deep cleaning of the aircraft prior to applying KILBLAT™ HFO.
- All bins must be empty and taken out of the aircraft.
- No food is to be present on board during the treatment.
- Only skilled staff carrying out the treatment should be on board.

DIRECTIONS FOR USE

- Start the treatment from the side furthest from the open exit door.
- Do not forget rails, spaces behind trolleys and trolley wheels.
- Shake can well before use.
- Hold the spray "upside down".
- **Single-shot continued spraying** : Press hard on the actuator until it locks. The spray will be continuous until the can is depleted.
- **Multi-shot spraying**: Press slightly on the tab without locking it. Release to stop spraying.
- Use KILBLAT™ HFO at a distance between 20 and 30cm away from the surface to be sprayed.
- Spray the surfaces to be treated in a grid pattern, insisting on the places frequented by insects (damp areas or where there is food).
- One KILBLAT™ HFO 250ml aerosol can treat up to 25m² of surface (10 à 12g/m²).

TECHNICAL DATA SHEET

- When applying KILBLAT™ HFO for the first time, or in a case of an infestation, the procedure must be repeated 3 times, with 2 week interval : 2 to 3 weeks : d0, d15 and d30.
- KILBLAT™ HFO can then be applied every 2 to 3 month for maintenance.

Use biocides with caution. Before use, read the label and information concerning the product.
